Professional Summary

Computer Science undergraduate specializing in **Artificial Intelligence and Quantum Communication**. Experienced in hybrid quantum-classical systems, Superdense Coding simulation using Qiskit, and deep learning frameworks including PyTorch and TensorFlow. Passionate about bridging quantum information theory with practical AI applications.

Education

B.Tech in Computer Science and Engineering

Lakireddy Bali Reddy College of Engineering
2023 – Present

Intermediate

Sri Chaitanya Junior College
2021 – 2023

Secondary Education

Sri B V Subba Reddy Muncipal Corporation High School
2021

Technical Skills

Programming:

Python, C, Java

AI / ML:

PyTorch, TensorFlow, GANs, Diffusion Models, Computer Vision

Quantum Information:

Superdense Coding (SDC), Quantum Entanglement, Qiskit, AerSimulator, Noise Modeling, Hybrid Quantum-Classical Systems

Web:

HTML, CSS, JavaScript, MERN

Tools:

Git, Visual Studio Code, Hugging Face

Workshops

- 1-Week Workshop on Data Preprocessing, Data Analysis, and Machine Learning using Python.
- 2-Week MERN Stack Development Workshop (MongoDB, Express.js, React, Node.js).

Certifications

- Amaravati Quantum Valley Hackathon 2025 Boot Camp certificate.
- AWS Academy Graduate – Generative AI Foundations
- Google Cloud – Introduction to Generative AI
- Programming Fundamentals using Python

Research/Publications

Hybrid Quantum-Classical Image Transmission via Superdense Coding Submitted to the 8th IEEE International Conference on Devices, Circuits and Systems (ICDCS).

Projects

Hybrid Quantum-Classical Image Transmission via Superdense Coding

- Designed a hybrid communication framework combining Superdense Coding (2 classical bits per qubit) with classical transmission.
- Implemented entropy-based block selection for efficient quantum resource allocation.
- Modeled effective channel capacity using Shannon's theorem.
- Simulated circuits in Qiskit (AerSimulator with noise models).
- Achieved ~16% effective transmission gain with 15% quantum allocation.

AI-Driven Crop Disease Prediction using YOLOv5

- Trained and fine-tuned YOLOv5 on custom agricultural datasets.
- Improved detection accuracy via dataset preprocessing and augmentation.
- Built inference pipeline for real-time prediction.

Bulk Image Resizer – Python CLI Tool

- Developed a command-line tool to resize single images or entire folders with custom width and height.
- Added support for PNG/JPG output formats, random sampling of N images, and automatic directory handling.
- Packaged and published the tool as a digital product with documentation and versioning.

Achievements

- Semi-Final Runner-Up – Amaravati Quantum Valley Hackathon 2025
- 2nd Place – LBRCE Coding Contest (2025)
- Consolation Prize - 8 hours MERN Hackaton (2025)

Additional Information

Languages: English, Urdu, Hindi, Telugu

Interests: Generative Models, Quantum Systems, Web Development

S.T.V.MOHAN REDDY

MOHANREDDY123456789

linkedin.com/in/s-mohan-reddy

PROFILE

Driven and curious technology enthusiast with a strong interest in smartphones, PC software, and the latest tech innovations.

SKILLS

Programming: C, Java ,Python
Web Development: HTML, CSS, JavaScript.
Problem-Solving: Data Structures & Algorithms

Personal

Leadership
Management Skills
Time Management
Communication Skills
Critical Thinking

LANGUAGES

- English – Fluent
- Hindi – Basic
- Telugu– Fluent

ADDITIONAL INFORMATION

- Interests: Technology, Web development, AI
- Hobbies: Internet browsing, Tech research, Learning

EDUCATION

B.Tech in Computer Science and Engineering

Lakireddy Bali Reddy College of Engineering

Intermediate

Sarada Educational Institutions

Secondary Education

Sri Chaitanya Techno College

PROJECTS

Hybrid Quantum-Classical Image Transmission via Superdense Coding

- Hybrid Framework: Combined superdense coding (2 classical bits/qubit) with classical transmission.
- Block Selection: Used entropy-based method for quantum resource allocation.
- Capacity Model: Applied Shannon's theorem to model effective channel capacity.
- Simulation: Built Qiskit circuits on AerSimulator with noise models.
- Results: Gained ~16% transmission efficiency using 15% quantum allocation.

ACHIEVEMENTS

Secured 2nd prize in the Amaravati Quantum Valley Hackathon, held on 02-08-2025 at Dhanekula Institute of Engineering & Technology.

CERTIFICATIONS

- Amaravati Quantum Valley Hackathon 2025 Boot Camp certificate.
- AWS Cloud Quest: Cloud Practitioner (Badge)..

EXTRA CURRICULAR ACTIVITIES

- Actively exploring and experimenting with open-source AI and large language models on GitHub for hands-on learning and practical exposure.
- Participated in technical hackathons and quantum computing boot camps such as Amaravati Quantum Valley events.
- Working on independent tech projects and self-learning to strengthen programming, AI, and problem-solving skills beyond academics

KOSURU MOUNIKA

Computer Science & Engineering Undergraduate

Computer Science and Engineering undergraduate with strong problem-solving, coding, and communication skills. Experienced in programming languages, front-end development, and databases. Passionate about continuous learning and innovation in software development.

Nuzvid, Andhra Pradesh, India

Education

Bachelor of Technology – Computer Science Engineering

Lakireddy Bali Reddy College of
Engineering, Mylavaram
2023 – 2026

CGPA: 9.49

Intermediate (MPC)

Sri Vagdevi Junior College,
Nuzvid
2021 – 2023

CGPA: 9.77

Skills

Frontend Development: HTML, CSS, JavaScript.

Programming Languages: Java, Python, C.

Databases: SQL, Oracle.

Soft Skills: Active Listening, Leadership, Teamwork.

Projects

Hybrid Quantum–Classical Image Transmission via Superdense Coding

- Modeled Shannon Capacity with quantum-enhanced throughput using Superdense Coding. Demonstrated increased efficiency using hybrid block transmission. Extended as research work for IEEE conference submission

Student Feedback System

- Developed a web-based feedback submission system using Java, JSP, and SQL.
- Implemented session handling for secure user interactions and data management.

Course Management System

- Developed a web-based course management system using Java, JSP, Servlets, and SQL.
- Implemented session handling for secure user interactions and data management.

Languages

- English:** Full Professional Proficiency
- Telugu:** Full Professional Proficiency
- Hindi:** Limited Working Proficiency

Certifications

- Joy of Computing using Python – NPTEL** (2024)
NPTEL – Internet of Things (IoT) – 71%
- Advanced Programming in C – Cisco**
- Python Fundamental Course – Infosys Springboard**

Internships

- Salesforce Agentblazer**
- Champion – Salesforce Internship**
(July 2025)

Research/publication

Hybrid Quantum–Classical
Image Transmission via
Superdense Coding Submitted
to the 8th IEEE International
Conference on Devices, Circuits
and Systems (ICDCS).

Achievements

- AQVH– Amaravati Quantum
Valley Hackathon
- Semi-Final Runner-Up
 - Final Round Participan

JARAPALA ROJA

COMPUTER SCIENCE & ENGINEERING UNDER-GRADUATE.

I am a Computer Science and Engineering undergraduate with a strong foundation in problem-solving, coding, and communication. I have experience working with programming languages, front-end development, and databases. I am passionate about continuous learning, exploring new technologies, and driving innovation in software development.

GODAVARTHI SHRESTHA CHARITHA

sresthacharitha2@gmail.com | 7732088918 | Andhra Pradesh, India

OBJECTIVE

CSE student interested in software development, system design, and research. Skilled in web technologies, Android UI design, and creating practical projects. Focused on clear technical documentation and effective communication.

EDUCATION

B.Tech in Computer Science Engineering
Lakireddy Balireddy College of Engineering (LBRCE)
2023–2027

Intermediate (CBSE)
V.S. St. John’s Higher Secondary School, Gannavaram
2021–2023

Secondary Education (CBSE)
DAV Public School, Jaggayyapeta
2020–2021

TECHNICAL SKILLS

Programming: Python (Cisco Certified), Java, C
Web Technologies: HTML, CSS, JavaScript, Git, GitHub, VS Code
Android Development: Java, XML (UI Design)
Quantum Systems: Superdense Coding, Qiskit, AerSimulator, Noise Models
Communication: Research Writing, Public Speaking

LANGUAGES

Telugu – Native Fluency
English – Professional Fluency
Hindi – Working Fluency

ACHIEVEMENTS

AQVH – Amaravati Quantum Valley Hackathon
Semi-Final Runner-Up
Final Round Participant
Mathematics Day – LBRCE
3rd Prize (Election Competition)
LIC Election Competition
Runner-Up

INTERNSHIPS

Junior Cybersecurity Analyst – Cisco Networking Academy
Lakireddy Balireddy College of Engineering (LBRCE)
70 Hours — Cyber Security Essentials Program
Exploring Networking with Cisco Packet Tracer
Lakireddy Balireddy College of Engineering (LBRCE)
3 Hours — Networking & packet tracer simulation labs

PROJECTS

Hybrid Quantum–Classical Image Transmission via SDC 2025

- Hybrid quantum-classical image transmission model.
- Reduced transmission cost using Superdense Coding.
- Extended as IEEE ICDCS research submission.

Shrestha’s Bakery Website 2024

- Responsive multi-page bakery website using HTML, CSS, and JS.

Money Management Tracker App 2024

- Android expense-tracking app using Java + XML.
- Simple dashboard for organizing daily expenses.

RESEARCH

Hybrid Quantum–Classical Image Transmission via Superdense Coding
Submitted to the **8th IEEE International Conference on Devices, Circuits and Systems (ICDCS)**.

CERTIFICATIONS

NPTEL: IoT, Ethical Hacking, Communication Skills
Infosys: Python Programming Certification

MUNAGALA SURENDRA REDDY

CAREER OBJECTIVE

Computer Science undergraduate specializing in Artificial Intelligence and Quantum Communication with experience in hybrid quantum-classical systems, Superdense Coding simulation using Qiskit, and scalable software development. Passionate about applying quantum information theory to practical AI and real-world computing problems.

INTERNSHIPS

Cybersecurity Virtual Intern

Cisco Networking Academy

Jun 2025 – Aug 2025 Remote

- Network security fundamentals, threat analysis, and cyber defense strategies.

Salesforce Developer Virtual Intern

AICTE NEAT Cell

May 2025 – Jul 2025 Remote

- Salesforce automation, data handling, and platform security implementations.

PROJECTS

Hybrid Quantum-Classical Image Transmission via Superdense Coding

Quantum Computing, Qiskit, Information Theory

- Designed a hybrid communication framework combining Superdense Coding with classical channels.
- Applied entropy-based block selection for optimized quantum resource usage.
- Modeled channel capacity using Shannon's theorem.
- Simulated noisy quantum circuits using Qiskit AerSimulator.
- Achieved approximately 16% transmission efficiency gain.

AI-Based Appointment Booking & Reminder Agent

- Automated scheduling through conversational AI and API integrations.
- Implemented intelligent reminder systems to reduce missed appointments.

Smart Car Accident Prevention System

- Built IoT-based collision detection using Raspberry Pi and sensors.
- Developed real-time alert mechanisms for driver safety.

RESEARCH/PUBLICATIONS

Hybrid Quantum-Classical Image Transmission via Superdense Coding

Submitted to the 8th IEEE International Conference on Devices, Circuits and Systems (ICDCS)

SKILLS

Programming

C, Python, Java, HTML, CSS, JavaScript

Web Technologies

React.js, Node.js, Express.js

Databases

MongoDB, MySQL

Quantum Information

Superdense Coding, Quantum Entanglement, Qiskit, AerSimulator, Noise Modeling, Hybrid Quantum-Classical Systems

Tools

GitHub, VS Code, Apache Tomcat

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Salesforce Certified Agentforce Specialist
- Salesforce Agentblazer Champion Program
- Infosys Python Foundation Certification

ACHIEVEMENTS

- Semi-Final Runner-Up – Amaravati Quantum Valley Hackathon 2025
- Finalist – Amaravati Quantum Valley Hackathon 2025
- 1st Prize – CODE CROWN AI Hackathon (LBRCE)

EDUCATION

B.Tech – Computer Science Engineering

Lakireddy Bali Reddy College of Engineering

2023 – Present CGPA: 8.71

Intermediate (MPC)

Vignan Junior College

2021 – 2023 96.8%

SSC

Good Shepherd School

2020 – 2021 94.5%
